**Intuit Cloud Solutions for Bookkeepers
(and the clients that love them)**

What is the Cloud?

It's just a bunch of servers!
Your data is securely stored on those
servers and you just log in and do your
work...

Intuit is the global leader in Cloud Accountancy

124 Countries in **12** languages

500,000 QBO Subscribers

1.48 Million QBO Users

90,000 QBOA Users

90,000 ProAdvisors

A new company signs up every minute of every day

What about UK Accts and Bookkeepers?

Already operate
in the cloud

Expect their role
to transform in
the next 5 years

See the
benefits of
working in
the cloud

Agree that technological
advances gives
opportunity to global
markets

Agree that unique selling point is important

What if.....

You never had to enter data and you don't have to chase clients for it... *it all just flows in from the bank*

You can finish your client's month-end... *on the train or even at your child's football game*

You, your client and the accountant are on the same set of books.... *no data sync issues*

You don't have to worry about servers, security, file sizes or data storage costs..... *It's all included*

Security you can trust

We care about security, and we do it well

Professional staff, automated tools, physical security, surveillance and alarms to monitor performance 24x7 to prevent high-tech breaches.

Your data is secure in our hands

QuickBooks Online is VeriSign Secured product and uses the same 128 bit SSL encryption technology used by the world's top banks.

We value privacy as much as you do

Privacy is built into everything we do. Intuit is a licensee of the TRUSTe Privacy Program, an independent, non-profit organisation committed to the use of fair information practices.

And it's available, whenever you need it

QuickBooks Online has been available more than 99.8% of the time for the past three years. This means that you can access your data online no matter where you are or what you are doing.
