Move to Sage Business Cloud Accounting

If your client would prefer a fully cloud-based solution with simpler functionality we can easily migrate their data to Sage Business Cloud Accounting from Sage 50.

Accounting is flexible cloud software for start-ups, micro, and small businesses looking for an MTD compliant solution to manage their finances and control cash flow.

From £22 per month.

Move to Sage 50cloud (Cloud connected)

The easiest journey for your clients would be to move to Sage 50cloud on subscription. A simple product upgrade to 50cloud will ensure they can remain compliant with MTD and they can benefit from all the functionality they know and love with the latest innovation harnessing the power of the cloud.

From £20 per month.

Move to Sage Business Cloud Financials

For clients who would benefit from a cloud business management solution combining business intelligence and CRM, scalability, support, and ease of use.

THE ALTERNATIVE

Remain on Sage 50—Perpetual Licence

Sage 50
Perpetual
Licence

Move to Sage 50cloud (Cloud connected)

This is the best option for your clients.

We offer Sage 50cloud on subscription with an annual fee. For clients looking to pay this way, in the majority of cases this will be the most cost-effective solution for MTD compliance. Sage 50cloud also gives clients access to all the benefits and features of our cloud connected software, with the same look and feel they're used to and it's easy to upgrade.

Renew and subscribe to the MTD submission module

If a client can't move we will offer the MTD submission module which will enable them to remain compliant.

- The module is available to customers who have an active contract with Sage.
- The module is available on subscription for 12 months or the remainder of their current contract.
- The module subscription will form part of the annual renewal conversation.
- Not moving will mean missing out on the latest features, including the Sage Capture mobile app, Sage Intelligence and Office 365.

Continue without the MTD module

Clients will be able to renew without the module.

This means that they will be unable to submit through the software and will need to work with their accountant, bookkeeper, or other third party to submit their VAT returns.

Speak to your account manager to talk through your options, pricing, and for help advising your clients.
